DETAILED ACTION***Response to Amendment***

This action is in response to the Applicants' amendment filed on September 15, 2004. Claims 2, 18, and 28 have been canceled. New claims 35-37 have been entered. Claims 1, 3-17, 19-27, and 29-37 are pending and will be considered for examination.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 1, 3-17, 19-27, and 29-35 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1, 5-7, 9-17, 19, 20, 23, 26, 27, 29-31, 34, and 35 are not within the technological arts because the steps of these claims can be performed by hand and do not require any technology. In addition, claims 3, 4, 8, 21, 22, 24, 25, 32, and 33 recite a nominal use of technology and are also deemed to be non-statutory. *The claimed invention must utilize technology in a non-trivial manner (Ex parte Bowman, 61 USPQ2d, 1665,1671 (Bd. Pat. App. & Inter. 2001))*. Although Bowman is not precedential, it has been cited for its analysis.

Allowable Subject Matter

Claims 36 and 37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Claims 36 and 37 are directed to a system and program for evaluating a product that uses data from a product token and data from a receipt token to automatically populate fields in an electronic evaluation form. The cited prior art does not teach using two specific sources of data (i.e. product token and receipt token) to automatically enter information into an electronic form.
